#### ONE SUSPECT IS PICKED UP

Police Do Not Believe He Knows Anything About Crime; Scottdale Workman Finds "Hostess" Who Watches "Cases" in Attic Very Closely,

Special to The Courist. SCOTTDALE, Nov. 14.—At the Fer-tuson undertaking establishment guson undertaking establishment yesierday many persons viewed the remains of the man found Wednesday in the creek between Kiefertown and Scottdale, but no person seemed to know who he was or where he might have come from. A suspicious character gathered up early Wednesday morning was taken down to the morgue last evening by Burgess S. P. Stevens, Chief Robert Smith and Patrolman M. F. McCully, but the suspect did not act as though he had ever seen the dead man. Missionary Society Meets.

Mrs. C. E. Auld entertained the Missionary Society of the Bapist church last evening at her Loucks avenue home. Mrs. Herbert and Mrs. Collins were the members taking part on the Program. Refreshments were served.

Hostess Watched "Cases."

At one of the shops in Scottdale

workmen came in and sprung the newest thing on his fellow workmen. He had been out on a job that took him to the attic and he told the boys how the lady of the house had been "hostess" to him during his work, sitting with him in the attle until the job was completed. One of the worknigh atudied and then said: "Getting popular?" "No," was the answer. "But you should have seen the 'cases,' "So the mystery was solved For Sale:

GENERAL WOOD'S SERVICE.

Harper's Weekly.
The splendid, efficient work of the ederal army at Gary, as formerly at Omaha, is a reminder of the value of that branch of the government in do-mestic as well as in foreign affairs,

and in time of peace as well as in war. General Wood was not permitted to serve his country abroad; but not only in spite of but actually because of that unjust and odious discrimination against him, he has had an opportunity in his own land to render military service not less essential and vital than that which his comrades in arms rendered at Chateau-Thierry and in the Argonne; indeed, a service requir-ing if possible the exercise of even greater discretion and fortitude.

It is a great thing to win a victory by "straight fighting" over a foreign soil. It is certainly no less great to win a victory over equally malignant foes on home soil and to do so not merely by force of arms, but still more by the discreet exercise of the highest faculties of civil as well as of military administration.

CONGRESS LEADERS DECIDE NOT TO BEGIN GENERAL REVISION OF TARIFF YET.

ISN'T WANTED BY BUSINESS

Meanwhile the House is Parsing Meas ures Changing Various Sections of the Underwood Law, but the Senate Takes No Action.

hearer to normal than i is today. This is the decision of the leaders in the legislative body arrived it after carefully considering a good many demands that a revision be attempted at the regular session which will begin in December. The decision is in accordance with a recommendation made some time ago by the tariff com-mission. That body advised against any general overhauling of the tariff at this time but recommended a rea-sonable amount of plecemeal legislation making changes in some of the schedules of the present tariff law.
The congressional leaders say that so The congressional leaders sat that so far as they have been able to ascertain there is not rear widesprend demand for an immediate general tariff revision. On the contrary, they say manufacturers as a rule prefer that mand for an immediate general taria revision. On the contrary, they say manufacturers as a rule prefer that the whole subject go over until after the whole subject go over until after. Her stomach is now in good condition,

of the new industries that sprang up during the war, notibly be dve indus-try. Up to this time the house has passed five piecement tariff bills and sent them over to the senate where they are for the time being results in the committee on finance Several other bills aimed at various section of the Underwood terrif law are yet to be acted on by the house. The most recent tariff action of the house was the repeal of the In v to promote recip rocal relations with the Dominion of Canada which President Taft approved in July 1911.

Canadian Reciprocity Repealed The Canadian recipror ty agreement, it will be recalled, was a gottated during the month of January 1911 between representatives of the Aircran and Canadian governments. It was agreed that the government should take the form of concurrent legislation in stend of a trenty, hermise (a inda wished to be free to minul it it any time if it should prove to be against her interests. On January 26, 1911, I ke bills were introduced in the American can congress and the Canadian paths. ment to carry the amangements into

· Both bills were vigorously opposed. The congress of the United States approved while the Canad an parliament defeated the bill. In congress the opponch s of the bill took he ground that the rediprocally agreement was a one sided arrangement he which the chief benefit would go to C unida. In the Canadan parliament the opponents of the bill attempted to show that the United States would be the chief beneficiary. One of the tyreements entered into was that word pulp and paper made of avoid pull when valued at more than four cents a pound should come in the United States duty free, upon condition that to export dury should be imposed by ( n u n on these articles. "It is a fact of common knowledge that margarine has been subjected to the severest scientific scrutiny and has been adopted by every leading Government in Europe as well as America for use by their armies and navies." Judge Hughes, is on the Bench of the Federal court of Virginia.

Now we present to you this new margarine "DIXIE," the final supreme production of Wm. J. Moxley, the founder of the margarine industry in America. And we tell you that it is purer and more pala-table than any margarine ever made before as well as having a higher food value than butter

Below you will find a picture of one of our great pasteurizers 'which we use for your double protection.

All milk and cream are supposed to he pasteurized at the milk stations before they are ever shipped. But as the hundreds of great cans ofmilk and cream arrive daily at the Moxley Churneries, we re-clarify and re-nasteurize them again in our own great pasteurizers in order to make assurance doubly sure.

Try this new margarine-"DIXIE" -- and you will find that you will like it for itself aside from the money it will save.

They are really late autumn 1919 models, but like certain famous automobiles, they are so good all the year around and will be so much higher after next January that we are doing our best to make our pat-rons realize that a "1920 spring suit" bought now will be a wise investment. Had these suits been heavy weight materials, this would have been absurd, but they are of such fine broadcloths, duvet de laines. duvetyns, tricotines and mens' wear serges-all just as comfortable when the thermometer is hovering around 60 as when it's nearer 30-that we are making a special appeal to women who don't need a suit for wear just now to buy one for later.
